# Decision Dashboards

## Agile Migration Insights!

Existing oversight in larger migration projects lacks a comprehensive snapshot, hindering strategic decisions. Corent introduces the Decision Dashboard, pioneering precise project views for strategic decision making, setting a new standard in migration strategy!

### Features

► Seamlessly track your migration wave planning at a granular level. Easily juggle and decide on multiple parameters of gravity, intricacy, and urgency!

### Benefits

► Estimate your migration status on-the-fly and effortlessly shift views between granular and a full spectrum view. Navigate your Cloud effortlessly with LIVE insights!

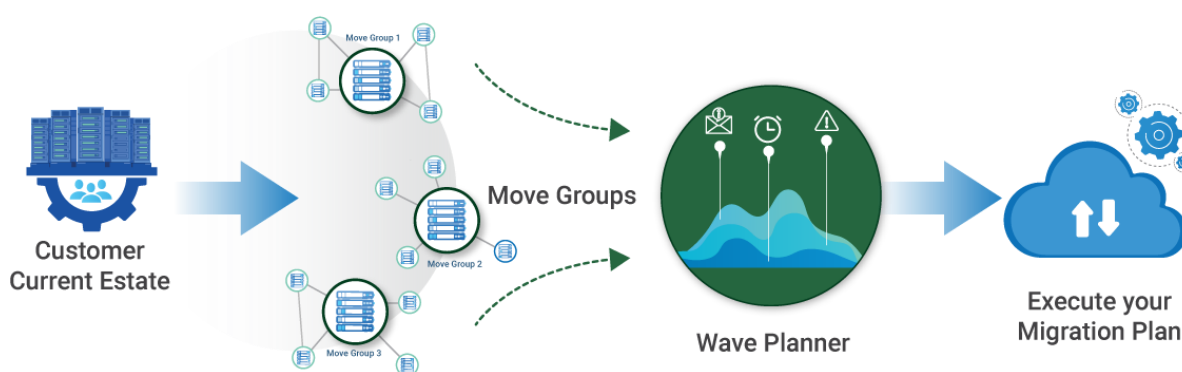

# Move Groups With Integrated Wave Planner

## Planned Eureka!

Today's migration strategies lack automated grouping, rapid migration planning, granular wave sequencing, and integrated synergy benefits—areas where Corent's Wave Planner stands as the state-of-the-art solution. **Synergize Business Intent and Priorities** for unparalleled migration orchestration.

## Features

► Customize Move Groups via Visual Graphs and Grid View. Use our Wave Planner to prioritize and redeploy Move Groups.

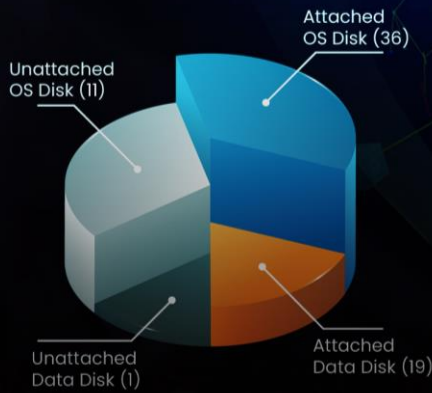

## Benefits

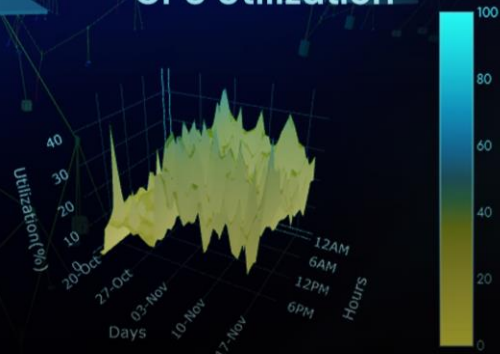

► Manage Move Group customizations with ease. Plan your waves seamlessly to coordinate migrations and derive significant time savings. Easily sync your business priorities!

## Disk Allocation

## CPU Utilization

# Post Migration Cloud Landscape View

## Cloud Visibility Reengineered!

Currently post-migration assessment lacks **Cloud cost visibility**, prompting Corent to introduce the **Post Migration Cloud Landscape View**. As a pathfinder in the Cloud arena, Corent provides a unique solution, revolutionizing post-migration assessment with precise repositioning and comprehensive state & cost insights.

### Features

- ▶ Garner critical insights from a post-migration Cloud landscape view. Experience unparalleled integration of migration and optimization from a single dashboard.

### Benefits

- ▶ Appreciate elevated "on-Cloud" cost optimization benefits using our leading FinOps platform. Experience CloudOps powered migration!
